Inspiration For Outdoor Living™

DecXorators®

Great inspirations. Inspired results.

Here is your guide to creating some of the most beautiful and imaginative outdoor places on earth—right inside your own property lines.

Deckorators originated the metal baluster category, throwing the doors wide open to more spectacular decks and other outdoor projects. Today, our vastly expanded product line offers a dazzling selection of every component you need to complete your outdoor living space in utmost style. You can design an outdoor living space that expresses virtually any look you could envision ... or let Deckorators' inspiring forms and originality take your imagination to a whole new, more enchanting place.

Deckorators products are as durable and highly functional as they are attractive. Each is smartly engineered, made of top-quality materials and finished for greater protection against the elements, so year after year of lasting beauty with minimal care is assured.

It might be classic or contemporary. Earthy or more innovative. Subdued or sublime. But when you build out your corner of the great outdoors with Deckorators, it's sure to be inspired.

Balusters

Deckorators first popularized the use of metal balusters. So it's no surprise that we continue to pace the industry today, providing an unmatched assortment of artistic balusters. You can choose from a wide assortment of aluminum balusters in numerous shapes, styles, colors and sizes. Or select from Deckorators' two glass baluster styles to create an uninterrupted view of the landscape.

Choose Classic, Colonial, Baroque, Arc, Estate or Traditional styles in black, white, bronze, rust or other colors (which vary by style). Build with all one baluster style or alternate between two complementary styles, for a custom look. Add more flair with baskets or collar accessories. Or use Deckorators new Duo-Connectors to create railings that boast an entirely new look.

All Deckorators balusters come ready-to-install using easy connectors. And every style works perfectly with Deckorators aluminum railings.

Tropical Hardwood Cap Rail

Deckorators railings are made of heavy-gauge aluminum with a thick powder-coated finish, for great looks and long-lasting toughness. Their classic, robust profile goes well with any Deckorators baluster style. Post-sleeves slide over treated or cedar 4x4s—making this system ideal for remodels or new projects. And Deckorators' innovative rail system lets you snap on the cap rail without visible fasteners for quick, secure installations.

Deckorators railings come in black or white with 36" or 42" rail heights, sold in boxed kits for 6' or 8' sections. Both 22.5° and 45° stair rail bracket kits are available separately. And new to the line is a tropical hardwood cap rail option that beautifully accents wood or composite decks.

To top it all off, Deckorators offers 18 designer post cap options—including more than a dozen new styles—to add the finishing touch of your choice.

Black Aluminum Rail, Tropical Hardwood Cap Rail, Black Classic Balusters with Arched Duo Connectors, and Tiffany-style Mission Post Caps.

NEW!

Decorators pioneered the first decorative covers for deck posts. Our new cast stone postcovers boldly carry on this tradition, transforming the posts and corners of any deck into magnificent, stately pillars.

Decorators cast stone postcovers come in three realistic-looking, earthy styles. Each is made of fiberglass-reinforced concrete that is hand-painted for a more natural-looking appearance. These postcovers slip over 4x4 or 6x6 cedar or treated posts, measure 8" square and come in 42" and 53" heights.

Top off these stone-look columns with your choice of three postcover caps. Each fits perfectly atop the postcovers. Mix or match these post caps to add a crowning touch to your deck, in your own distinctive style.

Sitting at the highest point of a deck or railing, post caps make an immediate statement—one that often forms the most enduring impression of that structure as well. Deckorators is well known for offering the broadest variety of post caps that add color, light and design to any outdoor project, in ways that most eloquently express your own personal style. This pre-eminent position continues today, with more than 20 premium Deckorators post cap styles to choose from.

Our post caps do everything from hold plants to provide illumination to merely grace a deck's uppermost extremities with colorful accents and elegant forms. Materials range from high-polish metals to leaded Tiffany art glass to brilliantly jewel-tinted glass. Most styles fit both 4x4 and 6x6 posts (see product listing for details). And all are offered with your choice of pressure-treated pine or cedar bases.

Post Cap

Copper Planter Post Cap

Post caps made entirely of metal or featuring metal-clad surfaces add a luxurious touch to decks as well as to the top of signposts, mailboxes and other projects. Polished metal reflects sunlight, while colored metals impart a sumptuous elegance. Deckorators offers a wide variety of premium metal post caps in styles suited to every application and personal taste.

Deckorators metal post caps come in peak, plateau and ball-top profiles. The Victoria Metal styles have tops plated in metal ranging from polished copper to painted white or green. Post Points are available in polished copper or a real patina finish. Maranacook styles feature pointed or ball-shaped metal caps atop bases made of Western red cedar. Most styles are available to fit either 4x4 or 6x6 posts. Besides making striking finials, these metal post caps provide added durability and weatherproofing for outdoor projects.
