

# Non Treated White Fir from Universal Forest Products

Universal Forest Products has been "Building Quality" since 1955. With our complete line of wood products, we have what you need, when you need it.

## **White Fir from the Best Inland Mills**

We're proud to introduce our quality non treated White Fir. Universal has once again gone the extra mile to ensure the products you sell to your customer are of the highest quality.

Because Universal is the largest user of solid sawn lumber, we have special relationships with North America's mills such as Bennett, Potlatch, Riley Creek, Empire, and Weyerhaeuser. They offer us special purchasing opportunities and pricing considerations which we pass along to our customers.

## **Mixed Truckload Distribution**

When you take advantage of our mixed truckload deliveries, you're able to save on freight charges while keeping your inventory investment low. That means you can offer your customers Universal's full range of products including White-Fir, treated lumber, pine boards, pattern stock, fencing and specialty items.

## **A Representative Near You**

For current market prices on any of our products, call your representative at the number below.
